## Capabilities Statement

---

Diversified Civil Contractors, LLC(DCC) is large enough to offer the range of services needed, but small enough to deliver projects with personal attention to our clients' quality standards, schedules, and budgets. Our skilled teams take pride in guiding a project from conception to successful completion. DCC partners with clients from the very beginning to listen to their needs and develop a clear and shared vision for a project.

Demolition & Removal of Existing Site Infrastructure, Installation of all Storm Drainage Infrastructure, Private Water & Sewer Main lines and Services, Curb & Gutter, Driveways, Sidewalks, Retaining Walls, Headwalls, Concrete Spillways, Concrete Paving, Dumpster Pads, Trickle Channels, Paved Ditches, Concrete Slabs, Slope walls, Etc.

Let us manage the details so that your fate isn't with those who didn't plan for success!

## Core Competencies

---

- Site Concrete
- Excavation & Site work
- Demolition
- Storm Drainage Infrastructures
- Private water and sewer lines and services
- Soil Stabilization

## Differentiators

---

We pride ourselves on being a Self-perform Prime Contractor with the ability to construct a wide variety of civil construction projects for our local municipalities. Our core team is comprised of project managers, superintendents, form work carpenters, equipment operators, concrete finishers, welders, mechanics, truck drivers, and pipe layers. We focus on civil construction projects ranging from \$5 thousand to \$5 million in NE Oklahoma.
